Experience

Workday // Product Designer
Jul 2018 - Present

Redesigned Workday's career site product. Built prototypes, worked with user researchers, and iterated on designs to create production ready deliverables.

Pushed designs towards production by collaborating daily with product managers, engineers, A11Y, and design system team. Drove product strategy and aligned with stakeholders by facilitating design thinking exercises.

Deloitte Digital // Product Designer, Researcher
Jan 2017 - Aug 2017 (MHCI Capstone)

Designed an app for police officers to collect rich information in the field. Conducted exploratory user research to uncover the biggest pain points that law enforcement faces today.

Created high-fidelity visual designs, concept videos, and a research report to hand off to our clients. Crafted design vision and strategy to help Deloitte Digital enter this new market.

Apple // Product Design Intern
Jun 2016 - Aug 2016

Redesigned an internal research tool used by user researchers in Apple IS&T UX. Conducted user research with Apple researchers. Created user flows, designs, and prototypes.

GoDaddy // Web Developer Intern
Jun 2015 - Aug 2015

Developed an updated documentation site for GoDaddy's UXCore design system using Ember.js and MongoDB. Developed a shareable code sandbox to help front-end engineers debug and collaborate on design system code.

Side Project

TachiWeb
April 2018 - Present

Designed and developed an open source manga reader for desktops using React/Redux and Electron. Collaborated closely with another developer who worked on the backend.
